Dear Friends:

We cannot believe how great our Franklin Street flowerbed looks! It is really an improvement on the few suffering perennials we planted when we first created the space.

You all did a fabulous job of transforming the bed in a very short time; and the new mulch is a crowning touch.

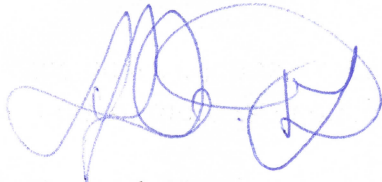

We are already enjoying the greenery and can't wait for the plants to flower. You turned an eyesore into a thing of beauty.

Thank you so much for your generous contribution of time, effort, and money to create our flowerbed.

Sincerely,

Frank Kasprowicz
